

OBJECTIVE

To secure a responsible career opportunity and fully utilize training, technical, and problem-solving skills while making a significant contribution to organizational success. Committed to continuous learning and delivering effective solutions to real-world challenges

EDUCATION

Degree	Specialization	Institute	Year	CPI
B.Tech	Computer Science & Engineering (AI&ML)	DIET Ganguru	2025-Present	9.4
MPC BIEAP	Physics, Chemistry, & Mathematics	Dr.Zakir Hussain Junior College	2023	10.0
SSC	-	Gurajada School	2020	10.0

TECHNICAL SKILLS

- **Programming Languages** : Python (Basic) , Java (Basic) , C (Basic)
- **Web Development (frontend)** : Basic HTML , CSS , JavaScript
- **Tools** : Jupyter Notebook, VS code , Microsoft Excel , Google Sheets , Google Forms
- **Soft skills** : Communication skills , Team Collaboration , Problem Solving
- **Others** : Data Entry, Time Management

CERTIFICATIONS

- Received participation certificate in **AQVH 2025 semi-finals** and secured Top 2 position in internal hackathon competition
- Completed **Front End Web Developer certification** and **Python for Data Science** course on Infosys Springboard.
- Earned certification in **Business Analytics using Excel – Simplilearn**.
- Successfully completed **Effective Team Communication** in Infosys Springboard.
- Completed 8-week NPTEL course on **Database Management Systems**.
- I got participation certificate in **Amaravati Drone Hackathon 2024**.

PROJECTS & ACTIVITIES

- **Amaravati Quantum Valley Hackathon 2025**
 - Secured **Top 2** position among 52 teams in an internal college hackathon and advanced to **AQVH 2025 semi-finals**.
 - Developed the "**Quantum Job Tracker**" a solution focused on innovative job tracking using quantum-inspired concepts.
 - Enhanced skills in problem-solving, rapid prototyping, and teamwork in a competitive hackathon environment.
- **Quantum Job Tracker – Amaravati Quantum Valley Hackathon 2025**
 - Developed a job tracking web application using **Python** and **FastAPI** for backend services.
 - Integrated **IBM Quantum Platform** APIs with Qiskit and Qiskit Runtime Provider to extract and track completed quantum jobs.
 - Linked backend to frontend to display detailed job data in a dynamic line dashboard for better visualization and monitoring.

- Gained hands-on experience in quantum computing APIs, backend development, and full-stack integration in a hackathon environment.
- **Excel Dashboard with Timeline Analytics**
 - Developed a **multi-sheet Excel dashboard** that analyzes sales and service data across timelines. Integrated **PivotTables**, **slicers** and **dynamic charts** to track performance by date, category, and sales rep. **Linked six sheets** (Master Data, Sales, Service Types, etc.) with **time-based filters** for monthly/weekly insights. Enabled easy trend analysis and business decision-making through a visually interactive and scalable dashboard.
- **Amaravati Drone Hackathon 2024** Oct 2024
 - Participated in the Amaravati Drone Hackathon 2024, where I presented a project on **Fruit Quality Detection** using image processing to identify ripeness and surface defects. Gained hands-on experience in agri-tech innovation and drone-based solutions.
 - **Tools used:** Jetson Nano, OpenCV, and Python.
- **Ongoing Project – Yawn Detection using Hybrid Technology**
 - Currently working as a project team member on a real-time yawn detection system using **hybrid technologies** like **MediaPipe**, **OpenCV**, and **YOLOv8 model**.
 - The project aims to improve safety by detecting driver drowsiness through accurate yawn detection alerts. The project is currently in the development stage.
- **Infosys Springboard – Pragathi Cohort 5 (Ongoing)**
 - Actively upskilling in technology, soft skills, and career readiness through structured mentorship and hands-on learning, as part of Infosys Springboard's flagship initiative to empower future-ready professionals.

INTERNSHIPS

- **Technical Support Intern**
 - **Infinity Store (Startup Company) | Onsite | Duration: 12 weeks (Ongoing)**
 - Providing technical support to resolve user issues and enhance customer experience.
 - Troubleshooting software and service-related problems across grocery delivery, taxi booking, and parcel services.
 - Collaborating with the team to streamline support processes and improve service efficiency.
- **Ongoing Project – Swarm Drone Project**
 - Currently interning at Dhronacharya Tech Hub, as a **Team Leader** leading a real-time project focused on designing and developing a swarm of autonomous drones for emergency medical supply delivery. The project aims to enhance medical logistics in remote and disaster-affected areas.

POSITIONS OF RESPONSIBILITY

- **Event Coordinator** [*Tech Hunt*] March 2025
 - Organised the Tech Hunt event **Fly High Hunt** during the college fest under the **DRONIX Club** at DhaneKula Institute of Engineering and Technology, demonstrating event coordination, planning, and team leadership skills

PROFESSIONAL SKILLS

- Strong time management skills, allowing for efficient prioritization and management of workload.
- Excellent teamwork skills, with the ability to collaborate efficiently with colleagues.

EXTRA-CURRICULAR ACHIEVEMENTS

- Participated in **Singing Competition** at DhaneKula **Samskruti – Dussehra Celebrations 2023**, demonstrating stage confidence and cultural involvement.

DECLARATION

I hereby declare that the information provided above is true to the best of my knowledge.
